

Calvert Garden Club
The Federated Garden Clubs of Maryland Awards

The Calvert Garden Club was created in 1937 and for many years contributed the community quietly and with minimum recognition. Beginning in 2003, club members felt that it was time to be recognized for their good works. Since then applications have been submitted to the Federated Garden Club of Maryland in a friendly competition with other Maryland clubs. Some large and worthwhile projects have been submitted for regional and national recognition. Please note that certificates are dated a year later than the actual project.

Special Note: In 2003 only one award in a category could be won. Because of many worthwhile projects, the rules were changed to permit numerous awards in any one category.
